Baseball

6/22/10

Dear Jamie,

I just wanted to let you know how much we enjoyed playing on our new Field Turf infield this season. The way the field is striped looks great and we can match it with our outfield grass striping. Everyone we played commented on how nice it looked and how well it played. The extra rolling you did on installation made it play a little faster. This is exactly what we wanted. I've played on several of your fields before and all play well. With the above modifications made to ours I believe it is the best I've seen!

Thanks again for all the hard work and attention to detail. Being on a tight time schedule this late fall and winter you were able to get the project done and done well. We will be fundraising to get the outfield turfed as soon as we can!

Sincerely,

Rick Heller
